

Operator-Led RMF, ATO, and Continuous Monitoring Support

SDV-OWNED

VETCERT IN PROGRESS

PM-friendly authorization support for RMF uncertainty, evidence gaps, aging ATOs, AO-specific requirements, and sustainment readiness.

UEI

W79KQ5EZRUC3

CAGE

CORE COMPETENCIES

RMF

RMF / ATO Execution

- Categorization, control matrix, SSP/SAP/POA&M
• Authorization package support

CM

Continuous Monitoring

- ConMon reporting cadence
• Evidence refresh, re-authorization

800

NIST 800-53 Rev. 5

- Control implementation, reassessment support
• Overlays, documentation updates

CLOUD

Cloud / Platform IT Authorization

- DoD cloud, platform IT, operational systems
• Boundary support

ISSM

ISSM / ISSO Support

- Security-role support, package ownership
• Evidence coordination

P&A

POA&M / Vuln Remediation

- STIG/ACAS tracking, patch coordination
• Aging metrics, closure discipline

DOC

Policy & Evidence Buildout

- Policies, SOPs, implementation narratives
• Artifact inventory, evidence requests

DHA

Health IT / DHA / HIPAA/PHI

- MEDCOI-style RMF support, privacy overlays
• PHI/PII protection context

COMPANY OVERVIEW

Service-disabled veteran-owned cybersecurity services company supporting PMOs, system owners, and primes with operator-led RMF, ATO, ISSM/ISSO, continuous monitoring, POA&M, vulnerability remediation, and authorization package support.

KEY PERSONNEL

JD

Jason Debelevich

President & CEO / Technical Director

ACTIVE TS | SCI/SAP ELIGIBLE | CISSP | IAT/IAM III

- 18 years federal IT/cyber experience across RMF, ATO, ISSM/ISSO, cloud, health IT, platform IT, and SAP/ISIG-adjacent environments.
• Led authorization efforts for MEDCOI-Tinker, DBEAR, and CEMS; performed independent assessment work for AFOSI Special Projects.

RS

Ryan Sykora

Executive VP / BD & Capture

- Leads BD, capture, teaming, pricing coordination, and customer engagement.

REPRESENTATIVE KEY PERSONNEL PAST PERFORMANCE

AF

AFLCMC Propulsion / Tinker AFB

CEMS, PREDYCT, ETAC

SENIOR CYBERSECURITY ENGINEER / ISSM

- Led CEMS NIST 800-53 Rev. 5 transition/testing for 848 controls; led PREDYCT ATO support and sustained ETAC RMF documentation.

35

35 FW Advanced Programs / PACAF / Misawa AB

SAP/ISIG-adjacent portfolio

SENIOR INFORMATION SECURITY OFFICER

- Restored a failing SAP/ISIG cybersecurity program to passing MAJCOM inspection; authored SSP, SCTM, RAR, and POA&M.

DHA

72nd Medical Group / DHA / Tinker AFB

MEDCOI Tinker

INFORMATION SYSTEM SECURITY OFFICER

- Built and maintained RMF package; earned Full ATO in 2021; led annual security review, MHS GENESIS migration, DaaS, wireless, and vulnerability remediation.

DB

3S OSS / DBEAR / Misawa AB

Range operations network

INFORMATION SYSTEM SECURITY MANAGER

- Managed INFOSEC program; earned and maintained ATO; led COMSEC/TACLANE; resolved CCRI findings; authored eleven RMF policies.

COMPANY DATA / CERTIFICATIONS

Table with 2 columns: Category (Company, Business Type, SBA VETCERT, etc.) and Value (DSFT Federal LLC, Service-disabled veteran-owned small business, etc.)

BEST FIT / BUYING TRIGGERS

- ATO / re-authorization pressure: Need date, aging ATO, Rev. 5 transition, or unclear authorization path.
• Evidence and package gaps: Missing artifacts, weak narratives, stalled findings, or POA&M drift.
• Prime teaming need: Credible SDV-owned RMF/ATO/ISSM/ISSO cyber support for DoD and federal systems.
• Sustainment readiness: Need recurring continuous monitoring, vulnerability remediation tracking, and reporting cadence.
